SKIN CONSULTATION

To improve your skin health and enhance your natural beauty. We always recommend an initial, complimentary skin consultation as the best starting point.

Beau-gician will identify any problem areas and recommend solutions.

- › Discuss skin issues and treatment options
- › Discover products that will benefit your specific skin condition and type
- › Go over professional services that will help with any concerns you're having with skin issues
- › Discuss the importance of maintenance and home care

Skin Consultation

Complimentary

SKIN CONSULTATION & AI SKIN SCAN

If you are serious about your skin, achieving desired results and keeping ahead of your pro-aging, we recommend an initial Skin Consultation and regular AI Skin Scan.

The AI Skin Scan is a personalized digital analysis of your skin which helps identify your optimal skincare treatments and products.

The AI Skin Scan not only identifies existing concerns but also detects underlying problem areas before they surface. Pigmentation, sun damage, pores, scars, skin texture, sebum levels, fine line and wrinkles.

Skin Consultation & AI Skin Scan

R350

TLB SIGNATURE ROYAL SKIN TREATMENTS

Polyphenol Alginate Mask	R300
Replenishing Vitamin Mask	R60
Add on Serums/Supplements	R60

COOLIFTING (*Available at selected clinics)

From Kim Kardashian to Paris Hilton, Coolifting has become Hollywood celebs favourite facial. Having Coolifting should be on everyones beauty bucket list! Coolifting, also referred to as the original “Hollywood Beauty Gun,” or “Frotox” is the newest non-invasion solution for facial rejuvenation. This quick treatment combines a unique concentration of hyaluronic acid and other botanicals with a cold, CO2 (carbon dioxide) spray directly onto the skin. The cool CO2 mist helps the hyaluronic solution to saturate more completely and deeply into your skin, increasing its impact.

Coolifting

Express Coolifting (30min)	R950
Coolifting Facial (1Hr)	R1800
Extra vile for neck, decolette & hands	R800

Coolift and 30-30 Peel	R2000
Coolift and Liphohydroxy Peel	R2100
Coolift and Retinol Peel	R2250

BEAUREJUVE IPL (*Available at selected clinics)

At TLB we use IPL (Intense Pulsed Light), similar to a laser treatment. Laser focuses just one wavelength of light, while IPL releases light of many wavelengths, like a photo flash. The light flashes heat the skin, fragmenting and breaking down imperfections so your body can naturally excrete them through the lymphatic system. An IPL laser can switch between colour filters, making it possible to target different coloured areas of skin. IPL is not a pain-free treatment but it is a result driven procedure. IPL can treat many skin conditions. Not only does it stimulate fibroblasts to increase collagen production, it treats fine lines, wrinkles and freckles to broken capillaries, redness, sun damage of your hands, neck, chest, and facial imperfections. Results are firm, even-toned, smoother, radiant & revitalized skin.

IPL BeauRejuve Full Face	R1300
IPL BeauRejuve Face & Neck	R1800
IPL BeauRejuve Face, Neck & Decollete	R2200
IPL BeauRejuve Forehead	R600

IPL BeauRejuve Mouth	R450
IPL BeauRejuve Neck	R600
IPL BeauRejuve Decollete	R1200
IPL BeauRejuve Hands	R1000
IPL BeauRejuve Half Arm	R1200
IPL BeauRejuve 1 - 5 Shots	R60
IPL BeauRejuve 6 - 10 Shots	R100

IPL TREATMENT

IPL VS LASER

MICRONEEDLING

Microneedling (aka collagen-induction therapy) is a non-surgical, almost pain-free, treatment that creates micropore channels in your skin. This treatment is performed by our Advanced Skin Care Specialist to achieve immediate and visible skin rejuvenation with long lasting effects. This popular treatment is designed for a wide range of skin conditions including sun damaged skin, lines and wrinkles, uneven texture, pigment, stretch marks, post op or acne scars. Microneedling stimulates collagen remodelling, improves restoration of volume and plumpness in the skin as well as treats large pores. Creating micro channels may sound scary but most skin rejuvenation treatments (including lasers and chemical peels) trigger a similar kind of wound-healing response, to kick-start a regeneration process at the cellular level.

Full Face	R1650	Eyes	R720
Full Face & Neck	R2200	Mouth	R720
Neck	R880	Spot/Body Treatments	POA
Decollete	R950	Consulation Cartridge	R100

DERMAPLANING

Dermaplaning treatment is a painless, quick procedure that gives immediate results. You can expect to see instant improvement in skin texture and tone, while the long term effects are increased cell turnover, fewer wrinkles and dark spots as well as a reduction of acne scarring leaving the skin smooth, supple and vibrant. This is done with the use of a surgical blade to “shave” the skin’s surface removing the top layer of dead skin along with fine hair. Dermaplaning is a form of physical exfoliation which leaves your skin brighter, smoother, glowing, and more youthful with the added benefit of better product penetration into the skin.

Dermaplaning

THERMOCOAGULATION (*Available at selected clinics)

Thermocoagulation is the removal of unwanted skin imperfections utilizing a high frequency current. A TLB skin specialist is able to treat: visible facial capillaries, skin tags, angiomas, millia, keratosis, angiokeratomes, open pores, or unwanted piercings.

Treatments are offered in 20 minute increments

NEAR INFRARED SKIN TIGHTENING (NIR)

(*Available at selected clinics)

Experience immediate, visible, subtle to dramatic improvement. NIR is a safe infrared light that heats the tissue under the skin's surface to tighten the skin's laxity and improve skin architecture. NIR stimulates the infiltration of fibroblast cells and the formation of new collagen, enhancing the tightening effect and helping bolster the skin against future ageing. NIR is recommended to treat crepey skin, superficial lines and wrinkles and as a regular anti-ageing facial. An ounce of prevention is better than a pound of cure

Full Face Treatment	R900	Hand Lift	R670
Full Face & Neck	R1380	Tight Tummy (Full)	R1200
Full Face, Neck & Decollete	R2120	Tight Tummy (Half)	R670
Tighten Decollete	R790	Firm Thighs	R850
Younger Neck	R670	Boast about Buttocks	R850
Perfect Cleavage	R790	Taught Knees	R670
Go Sleeveless	R730		

NIR THERAPEUTIC MASSAGE

Experience a result-driven massage, which is not a pamper but relieves general muscle and joint aches & pains as well as reduces recovery time for sportsmen and women. Near Infrared Technology has deep healing capabilities, improves circulation and eliminates toxins such as lactic acid, reduces inflammation and discomfort. By increasing blood circulation, we increase transport of the minerals essential for rebuilding damaged tissue, thereby reducing the time it takes for recovery. A brilliant treatment for anyone who suffers from Arthritis, Tendinitis, Fibromyalgia, Joints problems, Poor circulation and toxins. (e.g. Mercury which is the most dangerous of toxins).

30 minutes	R720
60 minutes	R1390

MASSAGE

Relaxing Hand & Foot massage (30min)	R200
